Solar Pro Magazine Index of Article Page

Solar Professional Magazine index of articles

Solar Professional Magazine was and still is a great resource, however they stopped publishing in 2018. All their articles are still available for download at www.solarprofessional.com. Some may say that these articles are a bit outdated, however I say that there is a lot to be learned from the past and some things, such as physics, do not change. I recommend articles to many of my students and the difficult part is finding the article, so we have made an index as follows.

Download the issues at www.solarprofessional.com

SP11.6: November/December 2018

From kW to MW System Design Considerations, by John Berdner	p.6
Electrical Service Types	p.10
PV System Commissioning, by Blake Gleason	p.15
Recommissioning and Retro-commissioning of Existing Systems	p.17
Production Modeling for Grid-Tied PV Systems, by Tarn Yates and Bradley Hibberd	p.31
Commercial PV System Data Monitoring, by Kyra Moore and Rebekah Hren	p.48
Networking Explained, by Bill Reaugh	p.52
Commercial PV System Data Monitoring, by Kyra Moore and Rebekah Hren	p.62
Cost Analysis Case Study	p.68
Fall Protection Systems, by Karl Reidlinger	p.71
Basics of Medium-Voltage for PV Power Plant AC Collection Systems By Dan Simpson, PE	p.87
Interpreting I-V	p.101
Using Fill Factor to Jump the Curve	p.111
Fault Detection and Fire Prevention by Bill Brooks	p.115
Soiling Assessment in Large-Scale PV Arrays	p.124
Advanced Battery Technologies for stationary Energy Storage Application by David Brearley	p.134

SP11.5: September/October 2018

A changing Energy Landscape	p.11
Residential Solar-Plus-Storage Systems	p.12
Evolution of c-Si PV Cell Technologies	p.18
Solar Power International 2018 Preview Vendor and Equipment Highlight, by David Brearley	p.32
2018 3-Phase String Inverter Specifications	p.42
Projects Borrego Solar	p.47

SP11.4: July/August 2018

Why Mega Solar Projects are turning to String Inverters	p.6
The Wire SMA Introduces Next-Generation Monitoring and Control Platform	p.10
Simulating NEC Voltage and Current Values	p.12
Achieving Commercial Operations in Large-Scale PV Power Systems, by Anastasios Hionis, PE and Mat Taylor	p.20
Distributed Energy Resource Optimization, by Tim McDuffie, PE	p.34
2018 Single-Phase String Inverter Specifications	p.46
Projects Ten Mile Farm	p.51

SP11.3: May/June 2018

The Wire ABB Introduces Compact Single-Phase Inverters	p.8
Identifying and Addressing Underperforming Solar Assets	p.12
Power Engineering Software for Large-Scale Solar Applications, by Bill Reaugh	p.20
In-House versus Outsourced Engineering Services, by David Brearley	p.30
Solar Rooftop Racking and Mounting Directory, by SolarPro	p.42
Projects D' Arrigo California Ranch 7	p.47

SP11.2: March/April 2018

The Wire SolarBOS Expands AC Combiner Line	p.8
Leveraging Drones for PV Plant Inspections	p.12
PV Commissioning Tips and Best Practices, by Nate Goodell, David Tedeyan and Gordon Woodcock	p.18
Calculating PV Degradation Rates Using Open-Source Software	p.31
Interview Amanda Bybee, CEO	p.38
Projects San Jose Environmental Innovation Center	p.44
Projects Kayenta Solar Facility	p.47

SP11.1: January/February 2018

The Wire Schneider Announces Expanded Conext SmartGen Power Classes	p.8
Critical Chain Solar Projects Management	p.12
AC Aggregation on Commercial Rooftops	p.16
Design Optimization in Constrained Applications, by Paul Grana	p.22
Optimizing for Speed in Commercial Rooftop Applications, by Randy Batchelor, PE	p.28
2018 Solar Industry Conference and Events, by David Brearly	p.36
Project Coyote Ridge Community Solar Project	p.44
Project Elizabeth Mine Solar Projects	p.47

SP10.6: November/December 2017

The Wire SMA Announces 2,750 kW Sunny Central Inverter	p.8
SCADA's Role in Utility-Scale PV Plants	p.14
Do not Confuse Margin with Markup	p.18
Advance Battery Technologies for Stationary Energy Storage Applications by David Brearly	p.20
Module-Level Power Electronics Platform by Joe Schwartz	p.32
60-Cell PV Module Data Aggregation by Joe Schwartz	p.40
Interview Hank Rogers, Blue Planet Energy Chief Executive Officer	p.54
Projects East Austin Alley Flat	p.60
Projects Old Alabama Road 2	p.62

SP10.5: September/October 2017

The Wire SolarEdge Extends Commercial Inverter Range	p.8
Streamlining Due Diligence with the IECRE	p.12
Getting Involved in the IECRE	p.16
Manufacturer Perspectives on Array Tracking Markets, Equipment and Innovation By Joe Schwartz	p.20
Solar Power International 2017 Preview Vendor and Equipment Highlights By David Brearly	p.36
3-Phase String Inverters for Commercial, Industrial and Utility-Scale Projects	p.48
Interview Lior Handelsman SolarEdge Technologies VP of Marketing and Product Strategy, Founder	p.58
Projects Kokomo Solar 1	p.63

SP10.4: July/August 2017

The Wire SMA Is Taking Orders for Newest Tripower Inverter	p.8
Winning Design-Bid-Build Projects	p.12
Distributed Energy Resources Saturation	p.18

Rule 21 Engineering Review Process	p.32
Solar Energy Storage Equipment for Grid-Tied Residential Projects	p.38
Solar Customer Engagement with Content Marketing by Anthony Fiorino and Kim Saccio-Kent	p.50
Automated Communication	p.56
Projects Cottonwood Creek Ranch	p.60
Projects Solar Design Associates Clark University	p.63

SP10.3: May/June 2017

The Wire SolarBOS Announces Fused AC Combiners	p.8
Cell-String-Level Performance Modeling	p.12
SCADA Systems for Large-Scale PV Plants by Bill Reaugh with Rowan Beckensten, Debbie Gross and David Brearley	p.18
Practical Application of NEC 2017 by Rebekah Hren and Brian Mehalic	p.34
High-Power C-SI PV Module Specifications by Joe Schwartz	p.46
Projects Newport-Mesa Unified School District	p.60
Projects Mass Renewables	p.63

SP10.2: March/April 2017

The Wire Spruce Ramps Up Residential Projects Financing	p.8
Available Fault-Current Calculation and Protection	p.12
Cost Effective O&M for Commercial Systems	p.18
Bifacial PV Systems by David Brearley	p.22
Preliminary Results from SolarWorld's University of Richmond Test Bed by Brian Lynch, SolarWorld	p.31
Solar Business Growth Lean Management Systems Address Need for Speed by Chris Anderson, Borrego Solar	p.35
Biomimicry and Meeting Rhythms Promote PEACE by T.J Kanczuzewski, Inovateus Solar	p.39
Cooperative Approach Transform Energy and Business by Amanda Bybee, Namaste Solar	p.41
Leveraging Technology to Fulfill a Shared Mission by James Hasselbeck, ReVision Energy	p.44
Solar Carports & Canopies by Joe Schwartz	p.48
Interview Sarah Kurtz, National renewable Energy Laboratory	p.56
Projects. SunSystem Technology	p.60
Projects Frey Electric Construction Company	p.63

SP10.1: January/February 2017

The Wire Fronius Announces Smart Meter Availability	p.8
Introduction to Aerial Inspection	p.12
Interconnections of Connections	p.17
Single- and 3-Phase String Inverter Specifications by Joe Schwartz	p.27
The State of the Solar Industry Interviews Compiled by David Brearley and Joe Schwartz	p.44
Projects True South Solar	p.60
Projects Sun Solar	p.63

SP9.6: November/December 2016

The Wire Yaskawa Introduces 1,500 V Source-Circuit Combiners	p.10
Retrofitting Non-Isolated Inverters in Legacy Arrays	p.14
Soiling Assessment in large -Scale PV Arrays by Sanjay Shrestha and Mat Taylor	p.20
1,500 Vdc Utilization Voltages in Ground-Mount Applications by David Brearley	p.34
Central Inverters for Utility-Scale PV Plants Compiled by Joe Schwartz	p.50
Project Holdrege Solar Center	p.60
Projects Nova West Solar	p.63

SP9.5: September/October 2016

The Wire SMA Releases Second-Generation Medium Voltage Block	p.10
The Importance of Discounting Future Solar Savings	p.14
Module-Level Rapid Shutdown for Commercial Applications by David Brearley	p.18
Solar Power International 2016 Preview Vendor and Equipment Highlights by Joe Schwartz	p.36
Effective Public Relations for Solar Companies by Sarah Horn	p.50
Interview Tristan Kreager, Fronius USA	p.62
Projects Sunsense Solar	p.68
Projects groSolar	p.7

SP9.4: July/August 2016

The Wire Solmetric Re-releases Shade Measurement Tool	p.10
Using Y-Connectors in String Inverter Systems	p.16
Residential Energy Storage Economics	p.22
Energy Power Storage Electronics by Joe Schwartz	p.38
Additional Equipment for Energy Storage Systems and Integration	p.44
Opportunities, Strategies & Best Practices for Electrical Balance of System Optimization Compiled by David Brearley	p.54
Aerial Cable Support Systems	p.58

Project Miller Bros.	p.66
Projects Palmer Metropolitan Airfield	p.68
Projects Juapi Projects Services	p.72

SP9.3: May/June 2016

The Wire Yaskawa-Solectria Solar Introduces High-Power String Inverter Models	p.10
Engaging the Codes- and Standards Making Process	p.12
Array Tracking Systems for PV Power Plants by Joe Schwartz	p.18
NEC 2017 Updates for PV Systems by Bill Brooks, PE	p.35
The Solar Software Ecosystem by Pamela Cargill	p.50
Projects Texas State Bank	p.68
Projects Haleakala Solar	p.71

SP9.2: March/April 2016

The Wire SolarEdge Releases StorEdge Solution	p.8
Installing Consumption-Monitoring CTs	p.12
Site Grading and Design Optimization by Samuel Laughlin and Bill Reaugh	p.21
Ground Mounts on Landfills by Bryan Morrison	p.24
Bonding and Grounding by Marvin Hamon, PE	p.29
Scalable Mounting Solutions by Keith Beisner and Sara Jacobs	p.35
Self-Consumption PV Systems Compiled by Joe Schwartz	p.38
Mandalay Bay Zero-Export PV System	p.50
Solar Marketing by Philip Hall	p.54
The Buyer's Journey	p.60
Interview Richard Lawrence, NABCEP	p.64
Projects Solar Frontiers Americas Development	p.68
Projects Same Sun of Vermont	p.71

SP9.1: January/February 2016

The Wire Fronius Introduces Revenue-Grade Metering	p.10
The Value of Interval Data in Solar Project Analysis	p.14
Fielded PV Module Reliability and Durability Compiled by David Brearley	p.20
2016 Single and 3-Phase String Inverter Specifications Compiled Joe Schwartz	p.32
Solar Workforce Development by Matthew Hirsch	p.46
Leave No Skill Set Unturned	p.52
Interview Kate Trono, PE, Sunlink	p.56
Project RA Power & Light	p.60
Project Assured Solar Energy	p.63

SP8.6: November/December 2015

The Wire All Earth Releases Dual-Axis Tracker	p.8
Resolving Fire Hazards from the Ground-Fault Detection Blind Spot	p.12
Dual-Tilt Mounting System for Low-Slope Roofs by Paul Gibbs and Paul Grana	p.20
3 Innovative Solutions to Lowering PV Project LCOE by Joe Schwartz	p.34
Fault Detection and Fire Prevention by Bill Brooks, PE	p.46
Troubleshooting Arc Faults and Ground Faults	p.54
Projects True South Solar	p.63

SP8.5: September/October 2015

The Wire HellermannTyton Adds 25-Year-Rated Metal Solar Placards	p.8
Performance Modeling Tools Overview	p.12
PV Performance Modeling Assessing Variability, Uncertainty and Sensitivity By Rob Andrews and Tarn Yates	p.21
Solar Power International 2015 Equipment Preview by Joe Schwartz	p.40
Designing PV System for Environmental Extremes Compiled by David Brearley	p.52
Projects NRG Renew	p.70
Projects O2energies	p.72
Projects Borrego Solar Systems	p.76

SP8.4: July/August 2015

The Wire Solmetric Announces I-V Curve Tracer Software Update	p.8
Residential Solar Financing: Integrators Can Offer a Financial Solution	p.12
Deploying Solar Plus-Storage Microgrids by C.J Colavito and Jobin Michael	p.22
Distributed Energy Storage Systems Compiled by David Brearley	p.42
Integrator Perspectives on 7 Module-Level Power Electronics Compiled by Joe Schwartz	p.58
Projects Standard Solar and SunEdison	p.72
Projects Same Sun of Vermont	p.75

SP8.3: May/June 2015

The Wire Solar-Log Revenue-Grade Meter Shipping	p.8
Improving Long-Term Back-of-Module Temperature Measurements	p.12
Empirical Testing at NREL and Beyond	p.14
Geotechnical Analysis and PV Foundation Design by Bob Donaldson and David Brearley	p.20
Ground-Mount Vendors and Systems for Commercial and Utility Applications by Joe Schwartz	p.37
Reassessing DC Voltage Drop by Ryan Mayfield, Paul Gibbs and Paul Grana	p.48
Projects Deacon	p.64

Projects Panasonic-Coronal p.68

SP8.2: March/April 2015

The Wire Trojan Battery Launches VRLA AGM Product Line p.8
Evaluating Glare from Roof-Mounted PV Arrays p.12
Distribution and Substation Transformers by Alexey Kondrashov and Tobin Booth, PE p.18
Centralized & Decentralized PV Power Plants: Vendor Perspectives by Joe Schwartz p.32
Solar Business Residential Software Platform by Pamela Cargill p.50
Projects North Coast Solar p.64
Projects Sunlight Solar Energy p.68

SP8.1: January/February 2015

The Wire Solar Power International 2014 p.10
Structural Considerations for PV Installations on Older Row Houses p.20
Rapid Shutdown for PV Systems Undersyanding NEC 690.12 by Bill Brooks, PE p.26
The Evolution of DC Combiners by David Bearley p.43
Array-to-Inverter Power Ratio p.56
Project Alpha Energy, ET Capital and Greenex p.58
Projects Renewable Energy Services p.60
Project Independent Energy Solutions p.64

SP7.7:November/December 2014

The Wire Quick Mount PV Announces Warranty Extensions p.8
Fire Classification for Roof-Mounted PV Systems p.12
Pitched-Roof Array Layout for Fire Code Compliance by Fortunat Mueller, PE p.18
The Boulder Compromise p.30
Quantifying Shading's Economic Impact by Paul Grana and Paul Gibbs p.34
Reliability Implications of Shading p.46
Code Considerations Solar for Water Heating Systems by Vaughan Woodruff p.50
Supply-Side Connection and Conductor Sizing p.64
Projects Nexamp p.66
Projects Sundance Power Systems p.68
Projects Moxie Solar p.72

SP7.6: October/November 2014

The Wire SolarEdge Announces Rapid Shutdown Functionality p.8
Optimizing Array-to-Inverter Power Ratio p.14
PV Systems Energy Performance Evaluations by Timothy Dierauf, Adrienne Kimber, p.22

Rebekah Hren and Sarah Kurtz	
Contractual Definitions	p.26
Module-Level Power Electronics Microinverters and DC Optimizers by Joe Schwartz	p.42
Rating PV Modules for Field Performance by Brian Grenko, Adrienne Kimber and Sarah Kurtz	p.56
Show Me the Module	p.66
Scada and Web-Base Monitoring	p.72
Projects Positive Energy NY	p.78
Projects Cobalt Power Systems	p.80
Projects Borrego Solar	p.84

SP7.5: August/September 2014

The Wire SolarMax Launches Central Inverters for US Market	p.8
SCADA Versus Web-Based Monitoring	p.12
Interpreting I-V Curve Deviations by Paul Hernday	p.17
Using Fill Factor to Jump the Curve	p.34
Designing For Fire Code Compliance by Matt Stornetta and Jayme Garcia, PE	p.42
The Fire Service Perspective	p.54
Single and 3-Phase String Inverters Compiled by Joe Schwartz	p.61
NEC Section 690.12: Rapid Shutdown	p.74
Projects Johnson Mellow Solutions	p.78
Projects NW Wind & Solar	p.80
Projects Microgrid Solar	p.84

SP7.4: June/July 2014

The Wire Chint and Next Phase Solar Partner for Field Support	p.8
Reactive Power Primer	p.14
The Horse and Boat Analogy	p.16
Reactive Power Control in Utility-Scale PV: Utility Requirements and PV Inverter Capabilities by Paul Brucke, PE	p.20
The Science & Art of Estimating by Katie and Patrick Ward-Seitz	p.42
Construction Cost Resources	p.44
Central Inverters For Utility-Scale PV Plants Compiled by Joe Schwartz	p.58
Developing Site Plan Drawings	p.66
Projects Freedom Solar Power	p.70
Projects General Energy Solutions USA	p.72

SP7.3: April/May 2014

The Wire Falson Labs Launches Solar Design Software	p.8
---	-----

Cost-Saving PV Source-Circuit Wiring Method	p.12
Winter Commissioning	p.16
Utility-Scale PV Ground-Mount Racking Solutions Industry Input & Opinion by Tommy Jacoby	p.20
Installing a Utility-Scale Ground-Mount PV System on a Superfund Site	p.30
Understanding the NEC 2014 and Its Impact on PV Systems by Rebekah Hren and Brian Mehalic	p.36
Solar Energy Storage Emerging Technologies, Markets and Applications by Joe Schwartz	p. 58
Interview James Worden, Solectria Renewable, And Worden, Barron Partners and Game Change Racking	p.76
Projects Prime Solutions	p.84
Projects American Solar	p.88

SP7.2: February/March 2014

The Wire Solectria Launches Listed 1,000 Vdc Inverters	p.8
Reducing Residential PV Systems PII Costs	p.14
Solar Energy Education and Training Best Practices	p.20
Commissioning and O&M Tools by Brian Mehalic and David Brearley	p.24
Test Leads	p.28
What's in Josh Haney's Tool Bag	p.34
Future-Proof Strategies for Success by David Brearley	p.40
Calculating DC Arc-Flash Hazards in PV Systems by Finley Shapiro and Brian Radibratovic	p.52
Selecting Arc-Flash PPE	p.55
Calculating Incident Energy Using the Maximum Power Method	p.62
Module Warranty Limitations	p.66
Projects Frey Electric	p.70
Projects Sentinel Solar	p.72
Projects SunnyMac Solar	p.76

SP7.1: December/January 2014

The Wire Solmetric Launches 1,000 Vdc IV Traces	p.8
Quantifying the Impact of Module Binning	p.14
Designing and Deploying Carport-Mounted PV System by David Brearley	p.20
Sierra Community College District	p.26
Kern Country Administration Building	p.32
Commercial Central Inverter Manufacturers and Products Lines by David Brearley And Joe Schwartz	p.38
Raceway Selection and Installation for PV Part Two: Design and Installations by Blake Gleason, PE	p.58
Specialty Tool-Installing Raceway and Pulling Wire	p.68

Interview Stephen, Amicus Solar Cooperative	p.82
Project Eaton	p.88
Projects PPC Solar	p.92

SP6.6: October/November 2013

The Wire SolarMax Launches 1,000 Vdc String-Inverter Models	p.8
Managing PV Installations with A Gant Chart	p.14
Industry Perspective on c-SI PV Module Reliability and the Rise of Comparative Testing By David Brearley	p.22
Raceway Selection and Installations for PV Systems Part One: Selecting a raceway By Bake Gleason, PE	p.74
Metal Wireways and Cable Trays	p.78
Examples from Specific PV Applications	p.90
Tile Roo Application Roofing Systems and Array Mounting Approaches by Jeff Spies And Johan Alfenson	p.92
Project Stellar Energy	p.110
Project Quick Mount PV & Creotecc	p.112
Projects Solar Service	p.116

SP6.5: August/September 2013

The Wire AE Solar Energy Launches 1 MW Utility-Scale Inverter	p.8
Bipolar PV Systems and the NEC	p.14
Using Thermal Imaging to Troubleshoot Solar Water Heating Systems	p.22
Distributed Inverter Design Utilizing String Inverters in Large Commercial Systems By Rob Erlichman	p.24
Code Considerations for Distributed Inverter Systems	p.34
2013 String Inverters Developments and Specifications by Joe Schwartz	p.42
Grounding Compendium for PV Systems by Rebekah Hren and Brian Mehalic	p.54
Determining Optimal PV System Monitoring Granularity by Casey Miller and Todd Miklos	p.86
Projects Sunsense Solar	p.104
Projects ProVision Solar	p.108

SP6.4: June/July 2013

The Wire KACO Shipping Inverters with Tigo Energy Management Unit	p.8
Designing for Value in Large-Scale PV Systems by Graham Evarts and Matt LeDucq	p.16
Value-Based Design Metrics	p.18
Module Racking and Mounting Systems for Pitched-Roof Applications By Tommy Jacoby	p.27

Quantifying Energy Production in Solar Heating Systems by Vaughan Woodruff	p.44
Heat Meter Standard Development	p.52
A Utility Representative's Perspective	p.54
A Heat Meter Manufacturer's Perspective	p.56
A System Developer's Perspective	p.58
PV Generation & Its Effects on Utilities Perspective from the Other Side of the Meter	p.61
By Dave Click, PE, and Bob Reedy, PE	
Top 10 Things for Solar Professionals to Understand about Electric Utilities	p.68
Interview Tobin Booth, Blue Oak Energy	p.78
Projects Nexamp	p.88
Projects LightWave Solar	p.92

SP6.3: April/May 2013

The Wire Silicon Energy Introduces Next-Generation Module Line	p.8
Impact of Soiling on Utility-Scale PV System Performance	p.14
1,000 Vdc Utilization in Nonresidential PV Applications by Greg Ball, David Brearley and Marvin Hamon	p.23
Benefits of 1,000 Vdc Utilization Voltages	p.26
Designing and Installing a 1,000 Vdc Rooftop PV System	p.32
Markey Survey of Listed 1,000 VDC PV System Components	p.42
Data Acquisition System Installation and Commissioning by Adam Burstein, with Josh Haney	p.58
Interview Ezra Auerbach, NABCEP	p.70
Projects Sunlight Electric & Shamrock Renewable Energy Services	p.78
Projects Robert A. Bothman, Inc	p.80
Projects Sunlight Solar Energy	p.84

SP6.2: February/March 2013

Electrical Codes and Standards Applicable to PV Installations	p.14
The Evolution of Residential Solar Leasing	p.20
The Wire DPW Solar Announces Updated Ballasted Racking System	p.26
PV Array Wire Management by Tommy Jacoby	p.30
The Consequences of Poor Wire Management	p.32
Protecting PV Array Conductors from Pests	p.42
Power-Conditioning Equipment for Residential Battery-Backup PV Systems	p.46
by Paul Dailey and Joe Schwartz	
Training Opportunities	p.52
Battery-Backup System Considerations	p.54
Ground-Mount PV Racking Systems Rack Your Brain No More by David Brearley, Tommy Jacoby and Joe Schwartz	p.58

Interview Alex Bradley, DuPont Photovoltaic Solutions	p.70
Projects IRC Solar Roof Systems	p.76
Projects Aurora Energy	p.80

SP6.1: December/January 2013

Maximum Number of Disconnects	p.14
The Wire Yingli Launches UL-Certified 1,000 Vdc Modules	p.18
Central Inverters for Utility-Scale Applications	p.23
Common Mode Noise and Paralleling Capability	p.32
Basic of Medium-Voltage Wiring for PV Power Plant AC Collection Systems by Dan Simpson, PE	p.59
Three Example of MV Wiring in PV Power Systems	p.71
Central Inverter Specs data compiled by Joe Schwartz and Doug Puffer	p.82
Interview David Green, San Francisco Department of Building Inspection	p.92
Projects Bella Energy	p.98
Projects SPG Solar	p.100
Projects Vanguard Energy Partners	p.104

SP5.6: October/November 2012

UL 1703 Revisions Impact Installers and Manufacturers	p.16
UL Standards Development Process	p.18
Fall-Clearance Calculations	p.24
The Wire Seaward Solar Introduces New-Measurement Tools	p.32
2012 Crystalline Silicon Module Guide Manufacturer Profiles and Products Specifications by Joe Schwartz, Specification aggregation by Doug Puffer	p.34
Security and Theft Prevention by Rebekah Hren and Brian Mehalic	p.81
Two PV System Theft Experiences	p.88
Solar Power International 2012 Equipment Highlights by David, Ryan Mayfield and Joe Schwartz	p.106
Interview John Wiles, Southwest Technology Development Institute	p.120
Projects Kenyon Energy	p.130
Projects Borrego Solar	p.132
Projects Socal Solar Energy	p.136

SP5.5: August/September 2012

Approaches to EPC Performance Guarantees	p.14
The Wire SPI 2012 in Orlando, FL	p.22
PV Power Systems in the NEC by Jason Fisher and David Brearley	p.27
Establishing Common Ground	p.28

Eliminating the Isolation Transformer	p.32
String Inverter Specifications Single and 3 Phase Products for North America Data Compiled by Doug Puffer and Joe Schwartz	p.51
Optimal DC Cable Selection in PV Designs by Zvi Gershony, PE, and Tom McCakmont	p.64
AC Coupling in Utility-Interactive and Stand-Alone Applications Compiled by Joe Schwartz	p.74
Microinverters and AC Coupling	p.82
Interview Maria and Bob Kingery, Southern Energy Management	p.108
Projects AllEarth Renewables	p.118
Projects Western Sun Systems	p.120
Projects Independent Power Systems	p.124

SP5.4: June/July 2012

Voltage Rise Considerations for Utility-Interactive PV Systems	p.14
A Critical Look at Module Warranties	p.22
The Wire Helios Solar Works Introduces Large Format Modules	p.32
Storage Strategies for Commercial Solar Water Heating Systems by Justin Weil And Patrick O'Boyle	p.37
Heat Loss Consideration	p.38
Storage tank Installation Tips	p.54
Alternating Current PV Modules in the NEC by Jason Fisher	p.58
Cable Connectors as Disconnects	p.64
Installing, Identification and Grouping	p.68
Wind Load Analysis for Commercial Roof-Mounted Arrays by Colleen O'Brien and David Banks	p.72
Projects Real Good Solar	p.98
Projects SOLARFORM	p.100
Projects MALIBU SOLAR	p.104

SP5.3: April/May 2012

Long-Term Module Replacement and Serviceability	p.14
Fall Protection Equipment Inspection and Maintenance	p.18
The Wire Trina Solar Offers New Modules and Design Services	p.24
Levelized Cost of Energy by Tarn Yates and Bradley Hibberd	p.28
The Relative LCOE of PV Systems	p.34
LCOE and Technology Grid Parity	p.48
PV Array Electrical Aggregation Strategies by Tobin Booth, PE, and Matthew Seitzler	p.51
PV-Class Fuses	p.52
New Developments by Peter Hoberg	p.67
Online Tools for Roof Measurement and Layout	p.72
Sun Paths and Shade Impacts	p.78

System Performance Measurement	p.80
Projects groSOLAR	p.88
Projects RMK SOLAR	p.92

SP5.2: February/March 2012

Standardizing PV System Documentation and Verification	p.14
The Wire Industry Currents	p.20
Fall Protection Systems by Karl Riedlinger	p.27
Glossary of Common Fall Protection Terms	p.30
Solar Power International 2011 Compiled by SolarPro magazine	p.52
High-Capacity Battery Banks by Christopher Freitas	p.64
SMA Multicluster System Configuration	p.80
Interview Stuart and Claudia Wentworth Quick Mount PV	p.84
Projects Skyfire Energy	p.92
Projects Swiss Solar Tech	p.94
Projects Photom Solar Power	p.96

SP5.1: December/January 2012

NEC Section 705.12 and Utility Interconnections	p.14
The Wire SEIA Announces Installer Safety Seminar and Expo	p.20
Central Inverters for Commercial PV Applications by Marvin Hamon, PE	p.26
Corrosion Impacts on Steel Piles by Scott Canada	p.60
Solar Thermal System Design the Art and the Science by Justin Weil and Patrick O'Boyle	p.73
Commercial PV System Data Monitoring by Kyra Moore and Rebekah Hren	p.86
Cost Analysis Case Study	p.94
Interview Gary Gerber, Sun Light & Power	p.100
Projects Sun Light & Power	p.108
Projects Dan House Electric	p.112

SP4.6: October/November 2011

PV Installation Hazards and Mitigation	p.16
Internal Wood Blocking for Roof-Mounted PV	p.24
The Wire SunLink Adds Utility-Scale Ground Mount	p.34
Perspectives on Crystalline Silicon PV	p.41
Recommended PV Module Selection Criteria	p.46
Commercial PV System Data Monitoring by Kyra Moore and Rebekah Hren	p.60
Back-of-Module Temperature Measurement Methods by Ryan M. Smith with Sarah Kurtz and Bill Sekulic	p.90
Implementing a Successful Safety Program by Karl Riedlinger	p.109

SEIA's Installer Safety Task Force	p.126
Interview Mike Holt, Mike Holt Enterprises	p.132
Projects Alteris Renewable	p.140
Projects Holocene	

SP4.5: August/September 2011

Creating Quality Training Programs	p.16
Geotagging Digital Photos	p.26
Optimizing Collector-Loop Design Temperatures	p.30
The Wire SPI 2011 Moves to Texas	p.34
String Inverters Single-Phase Solutions for the North American Market by David Brearley and Joe Schwartz	p.42
Field Applications for I-V Curve Tracers by Paul Hernday	p.77
Using the Array as a Sensor	p.102
PV Performance Guarantees: Proof of Performance & Guarantee Structures by Mat Taylor and David Williams	p.108
Interview Ole Pilgaard, Heliodyne	p.120
Projects Velocitel Energy Solutions	p.128
Projects Frederickson Electric	p.132

SP4.4: June/July 2011

Galvanic Corrosion Considerations for PV Arrays	p.14
The Wire U.S Solar Market Insight Published	p.22
PV Trackers by Stephen Smith	p.30
Avoiding Common Mistakes	p.46
PV Performance Guarantees: Managing Risks & Expectations by Mat Taylor And David Williams	p.56
Guidelines for a Successful Performance Guarantee	p.66
Turning on the Heat Solar Thermal System Commissioning Equipment for Commissioning	p.74
Glycol Charging Sequence	p.82
Interview Raghu Belur, Enphase Energy	p.86
Projects Resco Energy	p.94
Projects NW Photon Energy	p.100
	p.104

SP4.3: April/May 2011

Code-Compliant Conductor Sizing	p.14
The New NEC 690.16(B) Fuse-Servicing Requirements and Combiner Boxes	p.24
The Wire ASES Host 40th Annual Solar Conference	p.28

Low-Slope Roofs as Platforms for PV Systems by James R. Kirby, AIA	p.32
RISE Certification	p.44
Racking Manufacturer Solutions for Low-Slope Commercial Roof Applications	p.48
By David Brearley, Ryan Mayfield and Joe Schwartz	
Code Red: Notable Changes in the 2011 NEC by Rebekah Hren and Brian Mehalic	p.64
PV Output-Circuit Sizing Example	p.70
Overview of the Code-Making Process	p.72
Interview Geoff and Michelle Greenfield, Third Sun Solar	p.88
Projects Cupertino Electric INC.	p.96
Projects Lighthouse Solar	p.100

SP4.2: February/March 2011

Solar Hot Water Recirculation Considerations: Avoidable Energy Waste	p.14
PV System Labeling: NEC, OSHA and ANSI Codes and Standards	p.20
The Wire Fronius Releases CL Central Inverter Line	p.26
DC Combiners Revisited by Marvin Hamon, PE	p.33
Combiner Mounting and Conduit Entry by Blake Gleason, PE	p.46
The Bakersfield Fire by Bill Brooks, PE	p.62
Solar Power International 2010 by David Brearley	p.72
Projects Rosendin Electric	p.84
Projects REC Solar	p.88

SP4.1: December/January 2011

PV Systems and Firefighter Safety: A Proactive Approach	p.14
The Need for Speed: Accelerating Solar Growth Through Consensus	p.20
Module Reliability Trends	p.24
The Wire SMA Transformerless Inverters Now UL-Listed	p.30
Thin-Film PV: A System Designer's Guide by Rick Holz, PE	p.35
Thin-Film Performance Modeling	p.46
Materials & Methods for Flashing Penetrations Tile Roofing Systems by John Alfsen	p.62
The Importance of Properly Flashed Roof Penetrations	p.66
Growing Beyond the Start-Up Stage by Darlene McCalmont	p.71
Required Sales Items for Handoff	p.76
Interview Kent Sheldon, Power-One	p.80
Projects Sullivan Solar Power	p.86
Projects True South Solar	p.88
Projects Solis Partners	p.92

SP3.6: October/November 2010

Adding Granularity to PV Monitoring	p.16
Surge Protection Devices for PV Installations	p.22
The Wire Solar Power International 2010	p.30
Central Inverter Trends in Power Plant Applications by Greg Ball	p.38
Array Voltage Considerations by Bill Brooks, PE	p.68
Low Design Temperature	p.72
Low Array Voltage	p.74
Operations Management for Solar Integrators by Darlene McCalmont	p.82
Interview John Berdner, SolarEdge Technologies	p.98
Projects Commercial Grid-Direct Photovoltaic Systems	p.108
Projects Commercial Solar Water Heating Systems	p.112

SP3.5: August/September 2010

Residential Supply-Side Interconnection	p.16
Optimizing Thermal Collector Tilt Angles	p.20
The Wire Trina Solar Introduces New Module Lines	p.28
Distributed PV Systems Optimization: Microinverter, dc-to-dc and Two-Stage Inverters Products by David Brearley	p.32
Performance, Design, Installation and 2010 Technical Specifications c – Si Photovoltaics by Blake Gleason, PE	p.63
Interview Chris Anderson, Borrego Solar	p.90
Projects Commercial Grid-Direct Photovoltaic Systems: Missoula Technical Development Center	p.100
Projects Commercial Grid-Direct Photovoltaic System: Missoula Technical Development Center	p.104

SP3.4: June/July 2010

Create 3-D Models in Google SketchUp Using CAD Files	p.14
The Wire Canadian Solar Introduces Zep-Compatible Modules	p.22
Grounded-Mounted PV by Charly Bray	p.27
Large-Scale PV Operations & Maintenance by Dave Williams	p.49
Case Study: Fetzer Winery, Hopland, CA	p.64
Lag Screws In Residential PV Installations by Mark Shelly	p.70
Interview Matthew LeDucq, Suntech America	p.82
Projects Commercial Grid-Direct Photovoltaics System:	p.92
Projects Residential Solar Water Heating System:	p.96

SP3.3: April/May 2010

Avoiding and Resolving PV Permitting Problems	p.14
Optimizing Array Voltage for Battery-Based Systems	p.18
The Wire California Approve \$358 M in Solar Water Heating Incentives	p.20
Optimal PV-to-Inverter Sizing Ratio	p.24
Production Modeling for Grid-Tied PV Systems	p.30
The Dollars Are in the Details	p.55
Stand-Alone System Design by Phil Undercuffler	p.58
Series String Fusing for Batteries	p.70
Solar Heating Systems by Boaz Soifer and Bristol Stickney	p.78
Projects Commercial Grid-Direct Photovoltaic System	p.92
Projects Residential Grid-Direct Photovoltaic System	p.96

SP3.2: February/March 2010

Corrosion Chemistry in Solar Thermal Systems	p.14
Voltage Drop in PV Systems	p.16
The Wire Advance Energy Launches Solaron 250kW Inverter	p.20
DC Arc-Fault Circuit Protection for PV Systems	p.24
Pitched-Roof PV Mounting Design and Engineering Considerations by Yun Lee	p.31
Racking Equipment Guide by Ryan Mayfield and David Brearley	p.50
Streamlining Solar Water Heating Instalations by Chuck Marken and John Patterson, with Suzanne Olsen	p.60
New-Product Launches Solar Power Internatiol Anaheim, California, October 2009 by David Brearley, Ryan Mayfield and Joe Schwartz	p.74
Interview Jane Wiessman, IREC	p.86
Projects Commercial Grid-Direct Photovoltaic System	p.92
Projects Residential Grid-Direct Photovoltaic System	p.96

SP3.1: December/January 2010

Understanding and Optimizing Battery Temperature Compensation	p.14
The Wire TTI Redesign Sunseeker Tracker	p.18
Correct Role for National PV Installer Certification	p.22
2010 Grid-Direct String Inverter Guide by David Brearley	p.26
String Inverter: Technical vs. Practical Definitions	p.34
The Building Side of Building Integrated Photovoltaic by Jesse Wolf Corsi Henson, AIA, LEED AP	p.50
Common Code Violations Residential PV System by Ryan Mayfield	p.72
Interview Andrew McCalla, Meridian Solar	p.86
Projects Commercial Grid-Direct PV & Thermal Systems	p.92
Projects Residential Grid-Direct Photovoltaic System	p.96

SP2.6: October/November 2009

Changes to the PTC Module Ratings	p.14
Compliance with Article 690.31(A) of the 2008 NEC	p.18
The Wire DOE Host Fourth Solar Decathlon	p.20
Almost Time for Anaheim by David Brearley and Joe Schwartz	p.24
PV System Commissioning. By Blake Gleason	p.35
Recommissioning and Retro-commissioning of Existing Systems	p.38
Solar Thermal Hydronics: Collector Comparison and Selection by Bristol and Boaz Soifer	p.58
The Resurgence of Microinverter Technology by Ron Burden and Joe Schwartz	p.70
Interview Blake Jones, Namaste Solar	p.82
Projects Commercial Grid-Direct Photovoltaic System	p.92
Projects Residential Grid-Direct Photovoltaic System	p.96

SP2.5: August/September 2009

Solar Assisted Radiant Heating Systems	p.16
Interaction of Grid-Direct Inverter with Backup Generators	p.19
The Wire SEIA Holds Inaugural PV America Solar Conference	p.20
High Voltage Photovoltaics	p.24
Tile Integrated Photovoltaic Modules Aesthetic Power generation for High Performance Homes by Bill Reaugh and David Brearley	p.31
Living with Tile: Strategies for Success and Lessons Learned by Jonah Liebes	p.42
Making the Case for Residential Photovoltaic System Monitoring by Brian Farhi	p.46
PV System Ground Faults by Paul Mync and John Bredner	p.60
Low Impedance Faults in Grounded Conductor	p.70
Project Plan Sets by Ryan Mayfield	p.74
Interview Raju Yenamandra, SolarWorld USA	p.86
Projects Commercial Solar Thermal Pool System	p.92
Project Residential Grid-Direct Photovoltaic System	p.94
Project Commercial Grid-Direct Photovoltaic System	p.96

SP2.4: June/July 2009

Accounting for PV System Rebates	p.16
Scale-Solar Water Heating's Hidden Nemesis	p.18
The Wire Satcon Beta Test Granular Solution	p.20
Can We Land? By Ryan LeBlanc and Tarn Yates	p.24
c-SI Photovoltaics: Trends Design Purchasing and 2009 Specs by David Brearley	p.49
Inside the Mechanical Room by Rich Louis and Chuck Marken	p.76
Interview Kris Sutton, Solar Energy International	p.86
Projects Commercial Grid-Direct Photovoltaic System	p.92

Projects Residential Grid-Direct Photovoltaic System	p.94
Project Commercial Grid-Direct Photovoltaic System	p.96

SP2.3: April/May 2009

Aerial Site Surveys Save Time and Resources	p.16
Load Side Point of Interconnection Bus or Conductor Rating	p.18
The Wire World's Largest CIGS Thin Film Solar Plant Connected to Grid	p.20
Thin Film PV Market Share Increasing	p.22
Pulling It All Together by Tommy Jacoby and David Brearley	p.29
Preengineered PV System Packages Revisiting the Kit Concept by Mike Bauer	p.52
Essential for a Strong Web Presence by Ronald Fel Jones	p.60
How Inverters Work by James Worden and Michael Zeurcher-Martinson	p.68
Interview Rhone Resch, Solar Energy Industries Association	p.86
Projects Commercial Grid-Direct Floatovoltaics System	p.92
Projects Commercial Solar Thermal System	p.94
Projects Residential Grid-Direct Photovoltaic System	p.96

SP2.2: February/March 2009

Best Practices for Using S-5! Clamps	p.16
Bypass Diodes Improve System Performance and Safety	p.20
Instantaneous Array Performance	p.24
The Wire SolarWorld Opens North America's Largest Cell Manufacturing Facility	p.28
Module Grounding Clips and the NEC	p.32
Electrical Test Equipment by Blake Gleason	p.34
Flat Roof Mounting Systems by Ryan Mayfield	p.46
Grid Down Utility-Interactive Battery Backup System Design Power Up by James Goodnight	p.68
2008 Solar Power International Conference Equipment Highlight from San Diego By David Brearley and Joe Schwartz	p.77
Interview Bill Brooks, Brooks Engineering	p.86
Projects Commercial Grid-Direct Photovoltaic System	p.92
Projects Residential Solar Thermal System	p.94
Residential Thin-Film Photovoltaic System	p.96

SP2.1: December/January 2009

Calculating Inter-Row Spacing	p.16
2006 Uniform Solar Energy Code	p.20
Series String OCPD Requirements for Grid-Direct Inverter Applications	p.22
The Wire Congress Extends Solar Investment Tax Credit through 2016	p.26

String vs. Central Inverters for Commercial Applications	p.30
Next Generation Central Inverters Manufacturers, Specifications & Design Considerations by Tobin, Danny Lee and David Brearley	p.34
Solar Site evaluation Tools & Techniques to Quantifying & Optimize Production By Mark Galli and Pater Hoberg	p.54
Thermal Collector Considerations the Good, the Bad and the Opinions Compiled by Chuck Marken and Joe Schwartz	p.66
Strategies for Meeting Workforce Demand by Lisa Cohn and Elisa Wood, with Charles Thurston	p.70
Array to Inverter Matching Mastering Manual Design Calculations by John Berdner	p.78
Interview Bob-O Schultze, Electron Connection	p.86
Projects Commercial Grid-Direct Photovoltaic System	p.92
Commercial Solar Thermal System	p.94
Projects Residential Grid-Direct Photovoltaic System	p.96

SP1.1: October/November 2008

Module Power Tolerance Matters	p.16
Investing in Computer-Aided Drafting Software	p.18
Form 12s Metering for Grid-Tied Systems with Battery Backup	p.22
The Wire RoofScreen Enters the Solar Racking Market	p.24
Additional Electrodes for Array Grounding	p.28
From kW to MW System Design Considerations by John Berdner	p.32
Equipment Grounding Conductors: Sizing & Methods by Ryan Mayfield	p.54
Large Thermal Arrays Location, Layout and Piping by Chuck Marken	p.61
Pitched Roof Racking by Steve Fain and David Brearley	p.72
Interview AEE Solar's David Katz	p.82
Projects Commercial Grid-Direct Photovoltaic System	p.92
Projects Commercial Grid-Direct Photovoltaic System	p.94
Residential Grid-Direct Photovoltaic System	p.96
